Nurturing Parenting Program® Recognition

Introduction

Family Development Resources, Inc. (FDR), publisher and distributor of the Nurturing Parenting Programs recognizes the need to support a cadre of qualified professionals to serve as Facilitators and Trainer/Consultants in the Nurturing Parenting Programs. The need to develop a team of professionals is based on the increased and widespread utilization of the Programs as primary, secondary, and tertiary approaches for the prevention and treatment of child abuse and neglect. This document serves to identify the conditions and requirements of those individuals recognized by FDR as Program Facilitators or Trainer/Consultants.

This document is to be used as a guide and is not to be deemed to place obligations or duties on FDR. A separate agreement may be entered into between FDR and each individual.

What Does Recognition Mean?

Recognition addresses the issue of quality control. It entails a higher level of expertise in successfully implementing and facilitating and training others in the Nurturing Parenting Programs through increased training and networking with others using the Programs. It also indicates professionals have attended training workshops in Nurturing Parenting, understand the philosophy and integrity of the Programs, have demonstrated success in program implementation and facilitation, network with others using the programs and have the recognition and support of Family Development Resources, Inc. Recognition is not certification. We do not “certify” individuals as Facilitators or Trainer/Consultants in the Nurturing Parenting Programs but recognize their expertise and actions.

The Nurturing Parenting Programs are validated family-based programs. Years of extensive research indicate that when properly implemented, the activities in the program can serve as a powerful catalyst for family growth. Misuse of the program or use of the program in ways not intended cannot lead to the same end results. Recognition by FDR means a certain level of achievement has been obtained. These experiences include:

- Successfully implementing, facilitating and training others in the Nurturing Parenting Programs for parents, children or adolescents;
- Consulting with other professionals on the philosophy, program content, and procedures for implementing the Programs;
- Adhering to and supporting the integrity of the Program’s philosophy, structure, procedures and format.

Who May Apply

FDR maintains a strong policy of equal opportunity and encourages individuals to apply on the basis of competence and potential without regard to race, color, religion, sex, sexual orientation, national origin, age, marital status, reasonably accommodable disability, or citizenship, we well as other classifications protected by applicable state or federal laws.

Length of Recognition

Subject to being modified or changed by FDR, recognition of levels of achievement extends for a one-year period after which an individual may request renewal or termination. Renewal will be contingent on meeting the conditions set forth in the section titled, Annual Requirements. FDR may utilize information from all sources, including information received from the annual activities questionnaire and personal contacts, to determine if an individual is eligible for renewal.

Termination of Recognition

The relationship between the individual and FDR may be terminated within thirty days of initial notice given by either party and with or without cause. Termination may be initiated by the individual or FDR. Notice of termination may, but need not contain, the reasons why the party wishes to terminate or is terminated.

Fees

Subject to being modified or changed by FDR, individuals will be charged a one-time only application fee and a yearly renewal fee.
