Nurturing Parenting Programs® Three-Day Facilitator Training

Laura Olson MS, MEd

October 6-8, 2021
9:00 am to 4:00 pm

Family Nurturing Center
of Colorado

In three days, participants will learn:

- Philosophy of Nurturing Parenting;
- Five parenting constructs of abuse/neglect;
- Impact of maltreatment on brain development;
- How to assess high-risk parenting beliefs;
- How to tailor programs based on family's needs;
- How to gather process evaluation data;
- How to evaluate pre and post program impact;
- How to implement home and group-based models

TRAINING DESCRIPTION

The three-day training will focus on understanding the philosophy of nurturing parenting, assessing high risk parenting beliefs and environments, creating competency based parenting lessons and programs tailored to meet the individual parenting needs of families, and implementing programs at the primary, secondary and tertiary levels of prevention.

Participants will experience a hands-on approach to implementing home-based, group-based and a combination home-based/group-based program model.

Participants will learn how to administer and score the online versions of the Adult-Adolescent Parenting Inventory (AAPI-2) and the Nurturing Skills Competency Scales (NSCS), and how to select the best Nurturing Program model for your agency.

Participants will also learn how to monitor the success of families through on-going process evaluation strategies designed to measure the attainment of parenting knowledge and skills.

Learn how to implement the
**evidence-based Nurturing Parenting
Programs to meet the specific parenting
needs of families.**

The Nurturing Parenting Programs® are included in SAMHSA's National Registry of Evidence-based Programs and Practices

The philosophy of Nurturing Parenting emphasizes the importance of raising children in a warm, trusting and caring household. It is founded on the belief that children who are cared for develop the capacity to trust, care and respect themselves, other people and living creatures and the environment. The philosophy of Nurturing parenting is founded on seven principles:

1. Feelings of **Attachment**. Attachment means a bond between parents and their children that conveys a deep love that is unconditional. When children feel loved unconditionally, communication, trust and respect naturally follow.
2. **Empathy**. Empathy is the ability of parents to put themselves in the place of their children in an attempt to feel, think and understand what their children are feeling, thinking and understanding, and responding to them in a loving, respectful way.
3. **Nurturing Oneself**. Taking time in getting one's own needs met, as an adult, forms the foundation of understanding and helping children get their needs met. Nurturing parents take care of themselves as well as their children.
4. **Gentle Touch**. Research has shown that children who experience warm and gentle touch in the form of hugs, pats, and massages develop and maintain healthy relationships throughout their life, as well as a healthy and positive sense of their self.
5. **Discipline**. Setting limits through family rules, teaching right from wrong through family morals, and teaching respect and worth through family values are all a part of a nurturing family. Discipline cannot be imposed, beaten into or forced on children but rather develops best by the children modeling their parents.
6. **Expressing Feelings**. Helping children and adults learn appropriate ways to manage and express their feelings is a fundamental characteristic of a nurturing family.
7. **Expectations and Self-Worth**. Knowing what to expect of children as they develop plays a significant role in their self-worth. When parents have appropriate expectations, children learn that they are competent people, capable of pleasing

**SIX Protective
Factors**

The Nurturing Parenting Programs meet and exceed the **Six Protective Factors** identified by the U.S. Government for the prevention and treatment of Child Abuse and Neglect.

Assessing Parenting

Assessing Parenting is an online application that scores and records inventory assessments of participants. Home of the *Adult-Adolescent Parenting Inventory (AAPI-2)* and the *Nurturing Skills Competency Scale (NSCS)*. Agencies can then access profile and program data for reporting and intervention.
