THE PHILOSOPHY OF NURTURING PARENTING® emphasizes the importance of raising children in a warm, trusting and caring household. It is founded on the belief that children who are cared for develop the capacity to trust, care and respect themselves, other people and living creatures and the environment.

EVIDENCE BASED MEASUREMENT TOOLS:

Learn how to use the online **Adult-Adolescent Parenting Inventory** (AAPI) and the **Nurturing Skills Competency Scale** (NSCS) to gather pre and post program outcome data.

The AAPI assesses parenting attitudes and risk for abuse and neglect, while the NSCS gathers demographics and measures nurturing skills.
