About the **Nurturing Parenting® Programs** These family-based programs have a proven track record of preventing the recurrence of child abuse and neglect. Participants will experience a hands-on approach to implementing home-based, group-based and a combination home-based/group-based program model. Participants will learn how to administer and score the online versions of the Adult-Adolescent Parenting Inventory (AAPI-2) and the Nurturing Skills™ Competency Scales (NSCS), and Parenting Attitudes about Raising Teens Inventory (PARTI), and how to select the best Nurturing Parenting® Program model for your agency.

Participants will also learn how to monitor the success of families through on-going process evaluation strategies designed to measure the attainment of parenting knowledge and skills.

The Nurturing Parenting® Programs are proven, evidence-based, family focused programs first implemented in 1985 and recognized by national and state agencies for their effectiveness in preventing and treating child abuse and neglect. Since 1985, over one million families have participated in the Nurturing Parenting® Programs worldwide.

The 3 day CORE Nurturing Parenting® Program Facilitator training for Families in Supervised Visitation will focus on incorporating the philosophy, skills and strategies of nurturing parenting. Participants will learn how to design parenting programs utilizing the proven lessons of the Nurturing Parenting® Programs. A hands-on approach that includes facilitating weekly sessions and explains how to use program materials with diverse and multi-cultural populations. The training program utilizes assessment tools, children's and parents' program activities, family home practice assignments, icebreakers, personal growth lessons, communication dialogue, activities for personal power, positive discipline techniques, building self-esteem, emotional regulation, stress management, self-concept and explores empathy in parents and children. Participants will learn how to use the online version of the Adult-Adolescent Parenting Inventory (AAPI-2) to gather pre and post program outcome data.

About the Nurturing Parenting® Programs

These family-based programs have a proven track record of preventing the recurrence of child abuse and neglect. Four levels of the Nurturing Parenting® Programs address the specific needs of different populations:

PRIMARY Prevention–Education Programs are designed to empower individuals and families with new knowledge, beliefs, strategies and skills to make good and healthy lifestyle choices.

SECONDARY Prevention–Intervention Programs are designed for at-risk youth, teen parents, and families experiencing mild to moderate levels of individual and family dysfunction.

TERTIARY Prevention–Treatment Programs are designed for families referred for parenting education by social services/mental health for child abuse and neglect and/or family dysfunction.

COMPREHENSIVE Programs are designed for agencies to offer long-term, more comprehensive parenting education.

Adult-Adolescent Parenting Inventory (AAPI-2)

The AAPI-2 has proven invaluable in assessing the parenting attitudes and child-rearing beliefs of parents and adolescents. Founded on five parenting constructs known to lead to abusive parenting the AAPI provides scores that profile parents at risk for abusing and neglecting children.
