The 3 day CORE Nurturing Parenting Program Facilitator training ...

... will focus on incorporating the philosophy, skills and strategies of nurturing parenting. Participants will learn how to design home-based and group-based parenting programs utilizing the proven lessons of the Nurturing Parenting Programs. A hands-on approach to conducting home and group-based Nurturing Programs that includes facilitating weekly sessions and explains how to use program materials with diverse and multi-cultural populations. The training program utilizes assessment tools, children's and parents' program activities, family home practice assignments, icebreakers, personal growth lessons, communication dialogue, activities for personal power, positive discipline techniques, building self-esteem, emotional regulation, stress management, self-concept and explores empathy in parents and children. Participants will learn how to use the online version of the *Adult-Adolescent Parenting Inventory (AAPI-2)* to gather pre and post program outcome data.

Adult-Adolescent Parenting Inventory (AAPI-2)

The AAPI-2 has proven invaluable in assessing the parenting attitudes and child-rearing beliefs of parents and adolescents. Founded on five parenting constructs known to lead to abusive parenting the AAPI provides scores that profile parents at risk for abusing and neglecting children.
