The Nurturing Programs are family-based programs with a proven track record of preventing, intervening and treating the recurrence of child abuse and neglect. Four levels of Nurturing Programs address the specific needs of different populations:

Primary/Prevention-Education

Programs are designed to empower individuals and families with new knowledge, beliefs, strategies and skills to make good and healthy lifestyle choices.

Secondary/Prevention-Intervention

Programs are designed for at-risk youth, teen parents, and families experiencing mild to moderate levels of individual and family dysfunction.

Tertiary/Prevention-Treatment

Programs are designed for families referred by Social Services or other high-needs families for child abuse and neglect and/or family dysfunction.

Comprehensive

Programs are designed for agencies to offer long term, more comprehensive services.

Adult-Adolescent Parenting Inventory (AAPI-2)

The AAPI-2 has proven invaluable in assessing attitudes and beliefs of parents and adolescents and provides scores that profile parents at risk for abusing and neglecting children. Forms are available in English and Spanish. For more information, please visit www.aapionline.com.
