

Family Nurturing Plan & Assessment (FNP)

55 Session Home-Based Program

A Document for Parents

The Family Nurturing Journal (FNJ) is a document designed for parents to monitor the growth they are making in learning program competencies. A complete description of how to use the FNJ is located on pages 3 to 9 in the **Home Visitors Instructional Manual for Teaching Parents—55 Session Home Based Program**. A brief summary follows:

1. This is a document for parents participating in the Home-Based Nurturing Program. The purpose of the Family Nurturing Journal is to help parents and home visitors monitor the progress the parents are making in learning nurturing parenting knowledge and skills.
2. Each parent participating in the Home-Based Program should have their own FNJ. The Journal contains two pages for each of the 55 home-based lessons:
 - * Page one lists the lesson competencies so parents know exactly the information and skills they are required to learn. Page one also presents the Home Practice Assignment for the lesson so parents know the skills they need to practice between home visits.
 - * Page two presents three statements parents are requested to complete: How am I changing; How are my **children** changing; and, How is my **family** changing.
3. At the beginning of each home visit, parents are requested to share their successes in completing their Home Practice Assignment and changes happening in their family.
4. Enclosed is a complete copy of the Family Nurturing Journal and a CD which allows you to download your own copies. You have unlimited use. Note that the FNJ on the CD is in both WORD and a PDF version. Download the PDF version if you plan on implementing all 55 home-based lessons.
5. The WORD version allows you to make changes to the document to tailor the FNJ. That is, you can modify the FNJ by re-numbering the lessons if you change their sequence, shorten the number of home-visits offered, change the competencies, or add information your agency needs on the form.

How to Use the Family Nurturing Journal & Assessment

Dear Parents:

Welcome to the Nurturing Program for Parents and their Infants, Toddlers and Preschoolers. Congratulations on making a very wise choice in participating in the Program. Your lives as individuals and as a family will improve dramatically for the better. You will notice that family members are getting along better. There will be more laughter, more cooperation, and stronger feelings of attachment and closeness. All this won't happen without hard work and a commitment to positive change. There will be the usual bumps in the road with moments of frustration and doubt. But nothing ever worth working for ever came easy.

The Family Nurturing Journal & Assessment (FNJ) will help guide you in increasing your Nurturing Parenting beliefs and skills. Notice that at the top of each Session page are listed the Session Competencies. The competencies describe the new knowledge and skills you are responsible for learning. Each session builds upon the previous session, so don't fall behind. If you don't understand the information and the skills of the session, make sure you tell the Group Facilitator you need more time to learn the skills.

Also presented on each Session page are the Home Practice Assignments. Be committed to completing the weekly assignments. Try your best. If you don't succeed at first "try, try again" as the saying goes. Be prepared to share your successes and failures with your Group Leader. Recognizing all your successes provides you with moments of pleasure. Accepting all your failures provides you with opportunities to grow. What a perfect combination.

And finally, a full page in the FNJ is dedicated to the changes that are going on in yourself, your children and your family. Keep entries current. Write in the journal at least once a week. Write more often if you'd like. Record the differences you notice; the good ones and the bad ones. Be ready to share these changes with others participating in the program.

Like you, your children also want to experience the joys of a nurturing family. Keep at it. The positive changes you are making now will last a life time. I have confidence that your family will be successful in experiencing the power of positive nurturing.

Stephen J. Bavolek, Ph.D.
