# Family Nurturing Plan & Assessment (FNP)

## 27 Session Group-Based Program

### A Document for Facilitator Use

The Family Nurturing Plan (FNP) is a document designed for facilitators to evaluate the on-going progress of the parents participating in the Nurturing Program for Parents and their Infants, Toddlers and Preschoolers Group-Based and Home-Based Programs. A complete description of how to use the FNP is located on pages 3 to 8 in the **Facilitators Instructional Manual for Teaching Parents Group-Based Program**. A brief summary follows:

- 1. This is a document for Facilitators of the Parent's Program to monitor the progress of each family. This is called Process Evaluation. We want to ensure the family's success.
- 2. Each family participating in the Group Based Program should have a FNP completed to monitor the progress they are making during the program.
- 3. There are 27 group sessions in this model of the Nurturing Program for Parents and their Infants, Toddlers and Preschoolers. Each of the 27 group sessions has lessons with specific competencies parents need to learn to ensure their success. The Family Nurturing Plan is designed to help facilitators monitor the success of parents in learning these competencies.
- 4. Facilitators monitor the success parents are having learning new concepts and skills by completing the questions and rating the parents for each session they attend. Since there are 27 Sessions to the program, you will need to complete 27 individual session assessments for each family attending your group program.
- 5. Enclosed is a complete copy of the Family Nurturing Plan and a CD which allows you to download your own copies. You have unlimited use. Note that the FNP on the CD is in both WORD and a PDF version. Download the PDF version if you plan on implementing all 27 group sessions.
- 6. The WORD version allows you to make changes to the document to tailor the FNP. That is, you can modify the FNP by re-numbering the sessions if you change their sequence, shorten the number of sessions offered, change the competencies, or add information your agency needs on the form.

Nurturing Parenting Program for Parents and Their Infants, Toddlers and Preschoolers®

# **Family Nurturing Plan & Assessment**

For Facilitators of the 27 Session Group-Based Program

Each family that participates in the **Nurturing Parenting Program for Parents and their Infants, Toddlers and Preschoolers** needs to have a Family Nurturing Plan & Assessment (FNP) created for them to monitor their progress. The FNP is a working document that coordinates with the lessons presented in the Instructors Manual. For each lesson, the FNP lists the *Parenting Topics*, the *Competencies* parents need to learn, the *Home Practice Assignment* parents need to complete prior to the next session, and the *Knowledge and Practice Measurements* that ensure that Lesson Competencies have been learned by the parents. The FNP coordinates with the Family Nurturing Journal (FNJ) the parents receive to help ensure lesson competencies are being learned and utilized at home. See the Instructors Manual for more information. **Note: The FNP and FNJ are both available on the CD located in the inside of the Instructors Manual.** The FNP and the FNJ are presented on the CD in an MSWord file to modify or as a PDF to use as presented.

Nurturing Parenting Program for Parents and their Infants, Toddlers and Preschoolers®

# Schedule of Parenting Lessons for the 27 Session Group-Based Program

Stephen J. Bavolek, Ph.D.

The 27 Sessions in the Home Based Nurturing Program for Parents and their Infants, Toddlers and Preschoolers are presented below. Each session represents a lesson with an identified **Parenting Construct(s)** of the Adult-Adolescent Parenting Inventory (AAPI-2). Write the date in the **Selected Sessions** column when the lesson was introduced and the date in the **Date Completed** column when the lesson competencies were learned by the parent. The lesson competencies are presented on the following pages. The Session is not completed until the lesson competencies have been learned by the parent. It may take several sessions for the parents to learn the lesson competencies.

### **Parenting Constructs of the AAPI-2:**

- A Expectations of Children
- **B** Developing Empathy
- C Appropriate Discipline
- D Appropriate Family Roles
- E Empowering Children
