**Learn the philosophy and goals of Nurturing
Parenting and how to implement and
facilitate the group and home-based
programs.**

The Nurturing Parenting Programs® are recognized by the National Registry of Effective Programs and Practices (NREPP), the Substance Abuse-Mental Health Services Administration (SAMHSA) and the Office of Juvenile Justice and Delinquency Prevention (OJJDP).

Adult-Adolescent Parenting Inventory (AAPI-2)

The AAPI-2 has proven invaluable in assessing the parenting attitudes and child-rearing beliefs of parents and adolescents. Founded on five parenting constructs known to lead to abusive parenting the AAPI provides scores that profile parents at risk for abusing and neglecting children. For more info, visit www.assessingparenting.com

Philosophy of Nurturing Parenting

The philosophy of Nurturing Parenting emphasizes the importance of raising children in a warm, trusting and caring household. It is founded on the belief that children who are cared for develop the capacity to trust, care and respect themselves, other people and living creatures and the environment.

The Nurturing Parenting Programs®

The Nurturing Parenting Programs are family-based programs with a proven track record of preventing the recurrence of child abuse and neglect that address the specific needs of different populations

The Five Constructs/High Risk Belief Systems

- A. Inappropriate/Appropriate Expectations
- B. Low Level/High Level Empathy
- C. Strong Belief/Alternatives to Corporal Punishment
- D. Reverses/Appropriate Family Roles
- E. Restricts/Values Freedom/Independence

NSCS (Nurturing Skills Competency Scale)

The Nurturing Skills Competency Scales (NSCS 3.0) is a collection of six recently released age and program related scales that provide a comprehensive profile of the families you are working with. The long version of the NSCS meets the requirements for state and federal government related requests for a comprehensive profile of the families receiving services. The short version allows pre/post data capture of knowledge child development and utilization of nurturing skills.

National Trainer Jennifer Moss, MA will host *this 2-day training with a focus on Child Abuse Risk Assessments: Adult-Adolescent Parenting Inventory (AAPI), the Nurturing Skill Competency Scale (NSCS) and the (PARTI)Parents Attitudes Raising Teens Inventory!* Participants will learn how to use the online versions of these three assessments to gather pre and post program outcome data. In addition, we will do treatment planning and case conceptualization. Several parts of the day will be taught experientially and hands on, including the popular Nurturing Boot camp!

PARTI- Parents Attitudes Raising Teens Inventory. Cutting edge communication tool to enhance understanding between parents and their teenagers, also a great co-parenting assessment! Expect immediate access to agreements, disagreements and uncertain parenting values and beliefs.

Other Objectives: Enhancing your understanding of the value of collecting data

- Increasing your skills in implementing programs that ensure family and/or individual post program success.
- Exploring multi-cultural usage of the assessment
- Researching how different variables affected your outcomes
- Practicing interpretation, client communications and treatment planning
- Analyzing program data for unexpected outcomes.

Successful programs have several benefits:

- The likelihood of continued funding
- The increase in positive individual and family functioning which was the major goal of your efforts.
- Favorable outcomes and evidence of this!
